

Welcome to

EMPOWERSHIP

helping savvy women thrive

INTRODUCING **EMPOWERSHIP**

We've fused our experience and passion with research-based insights to create a comprehensive 1-year learning, development & mentorship program designed exclusively for women. Empowership is turning conventional learning and development programs upside down.

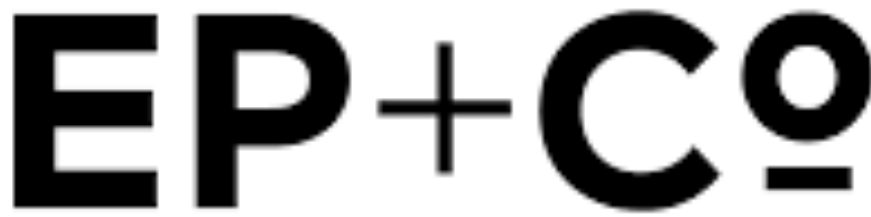

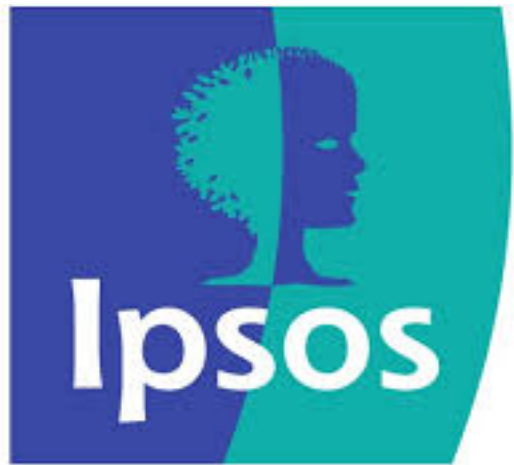

This program gives women within a company access to coaching, training, and support, 365 days a year without exhausting internal resources. The 12-month journey launches participants into a place of confident, focused and positive action.

Now that's empowering.

CORPORATE CLIENTS

**Empowering Over 2,500+
Women Across 25+
Countries in 4 Years**

partial list of clients includes....

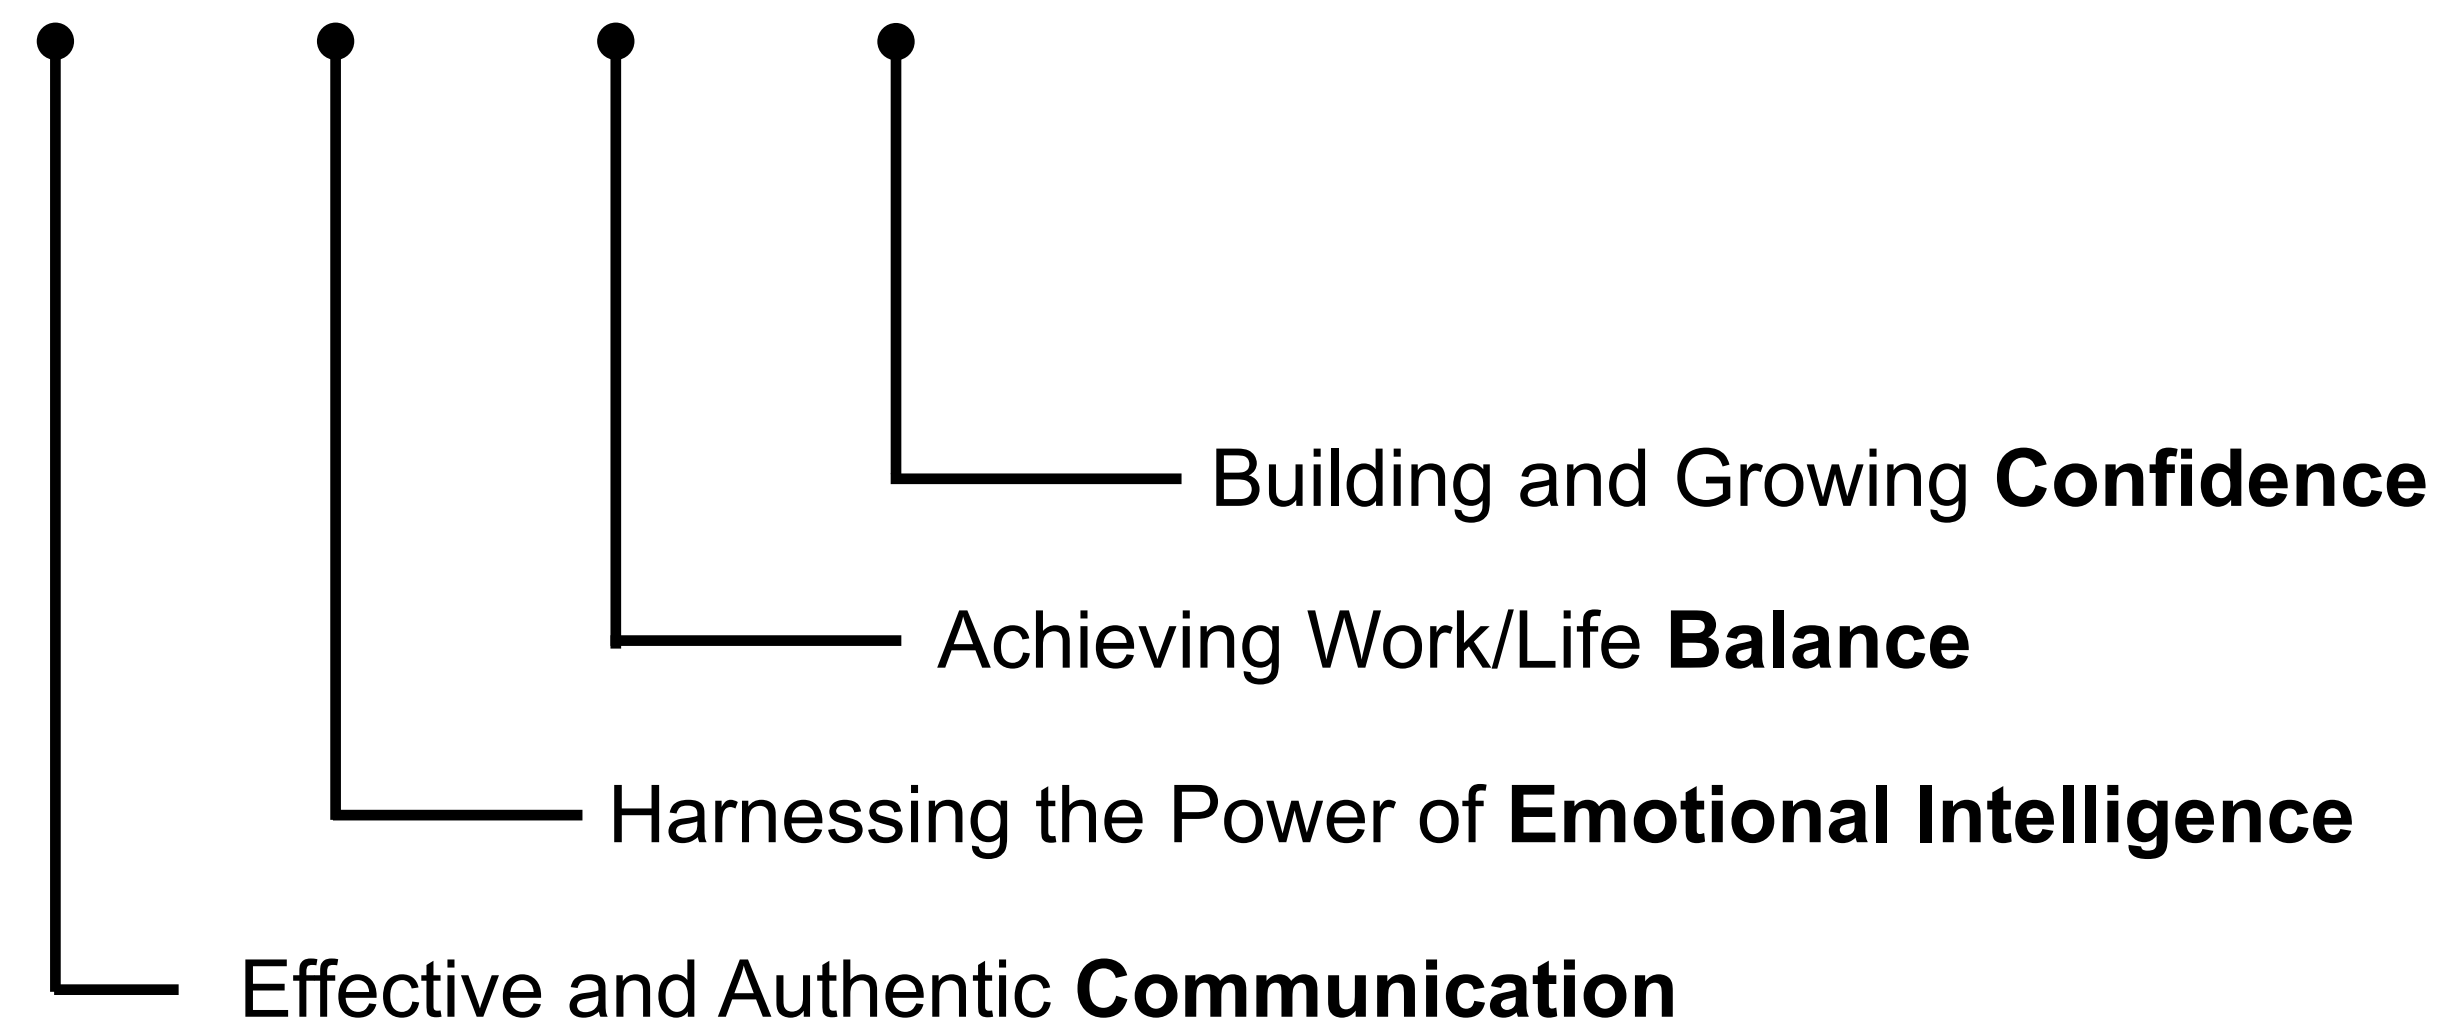

The Program Core

We see all women as leaders whether they are leading a team of thousands, a crucial project or their individual career. We're focused on supporting and building our members (leaders) from the inside-out.

We believe in order for women to truly thrive externally and own their success internally, they must sharpen both their internal and external skills.

Our curriculum targets 4 key internal components, confidence, balance, emotional intelligence and communication. As women grow within each of these areas they enhance their external presence, relationships and overall leadership effectiveness.

Our Core Teaching Pillars

OVERVIEW

ENROLLING NOW FOR A JANUARY 2021 START
